## PROFILE

Passionate Full Stack Developer and UI/UX Designer with hands-on experience in building scalable, high-performance web applications and crafting intuitive digital experiences. Proficient in the MERN stack and Next.js, I specialize in developing dynamic user interfaces, secure authentication systems, and efficient backend architectures. Skilled in user research, wireframing, prototyping, and collaborating with cross-functional teams to deliver user-centered designs that enhance brand identity and drive engagement.

## SKILLS

• MERN Stack • HTML • CSS • Javascript • REST APIs • MySQL  
• Git • Github • Postman • Tailwind CSS • ShadCN  
• Figma • Wire-framing • Prototyping • Photoshop • CorelDRAW • Canva • MS office

## PROFESSIONAL EXPERIENCE

### Web Developer Intern

10/2023 – 04/2024

Primewise Consulting (Certificate Link) 🔗

Remote

- Developed and maintained web applications using **React.js**, **Next.js** for server-side rendering, and **Node.js/Express.js** for backend services, ensuring high performance and scalability.
- Enhanced user experience by implementing responsive designs using **HTML** and **Tailwind CSS**, optimizing interfaces for various devices.
- Collaborated with cross-functional teams to deliver features on schedule, adhering to agile development principles.
- Actively participated in code reviews, ensuring code quality and adherence to project requirements and timelines.
- Utilized **Git** and **GitHub** for version control and team collaboration, contributing to over 100 pull requests across multiple projects.

### Summer Internship

08/2022 – 10/2022

Solitaire Infosys (Certificate Link) 🔗

Chandigarh, India

- Completed a 45-day internship focused on building dynamic single-page applications (SPAs) using **Angular**.
- Implemented responsive and visually appealing user interfaces with **HTML**, **CSS**, **Bootstrap**, and **Angular** components.
- Gained proficiency in building reusable components and services, improving the maintainability of web applications.

## PROJECTS

### Notebook 🔗

DigitalNotebook with User Authentication

- Built a **MERN stack Notebook app** with **JWT-based authentication**, enabling user registration, login, and password recovery via **Mailgen** and **Nodemailer**. Managed secure tokens using **cookie-parser**.
- Developed a **Notebook Dashboard** allowing users to **create, search, and manage notebooks** with sections & pages.
- Designed **RESTful APIs** for CRUD operations, optimized database interactions, and integrated **Cloudinary** & **Multer** for user avatars.

### Figma UI/UX Projects

UI/UX Design

**Link:** Figma Design 🔗

Redesigned interfaces for various web and mobile apps focusing on modern layouts, usability, and visual appeal.

Includes:

- E-commerce product page design
- Landing Page for ABUN.com
- Landing page for Madhubani Makhana

- Portfolio Website Design

Created using Figma with attention to responsive design, user flows, and clean aesthetics.

## EDUCATION

---

### **Master of Computer Applications**

*Kurukshetra University*

CGPA: 7.38

08/2021 – 06/2023

Kurukshetra, India

### **Bachelor of Computer Applications**

*Dyal Singh College*

CGPA: 7.07

07/2018 – 06/2021
